

KMS Technologies

Innovating Solutions

Synergy through Array EM

New concepts

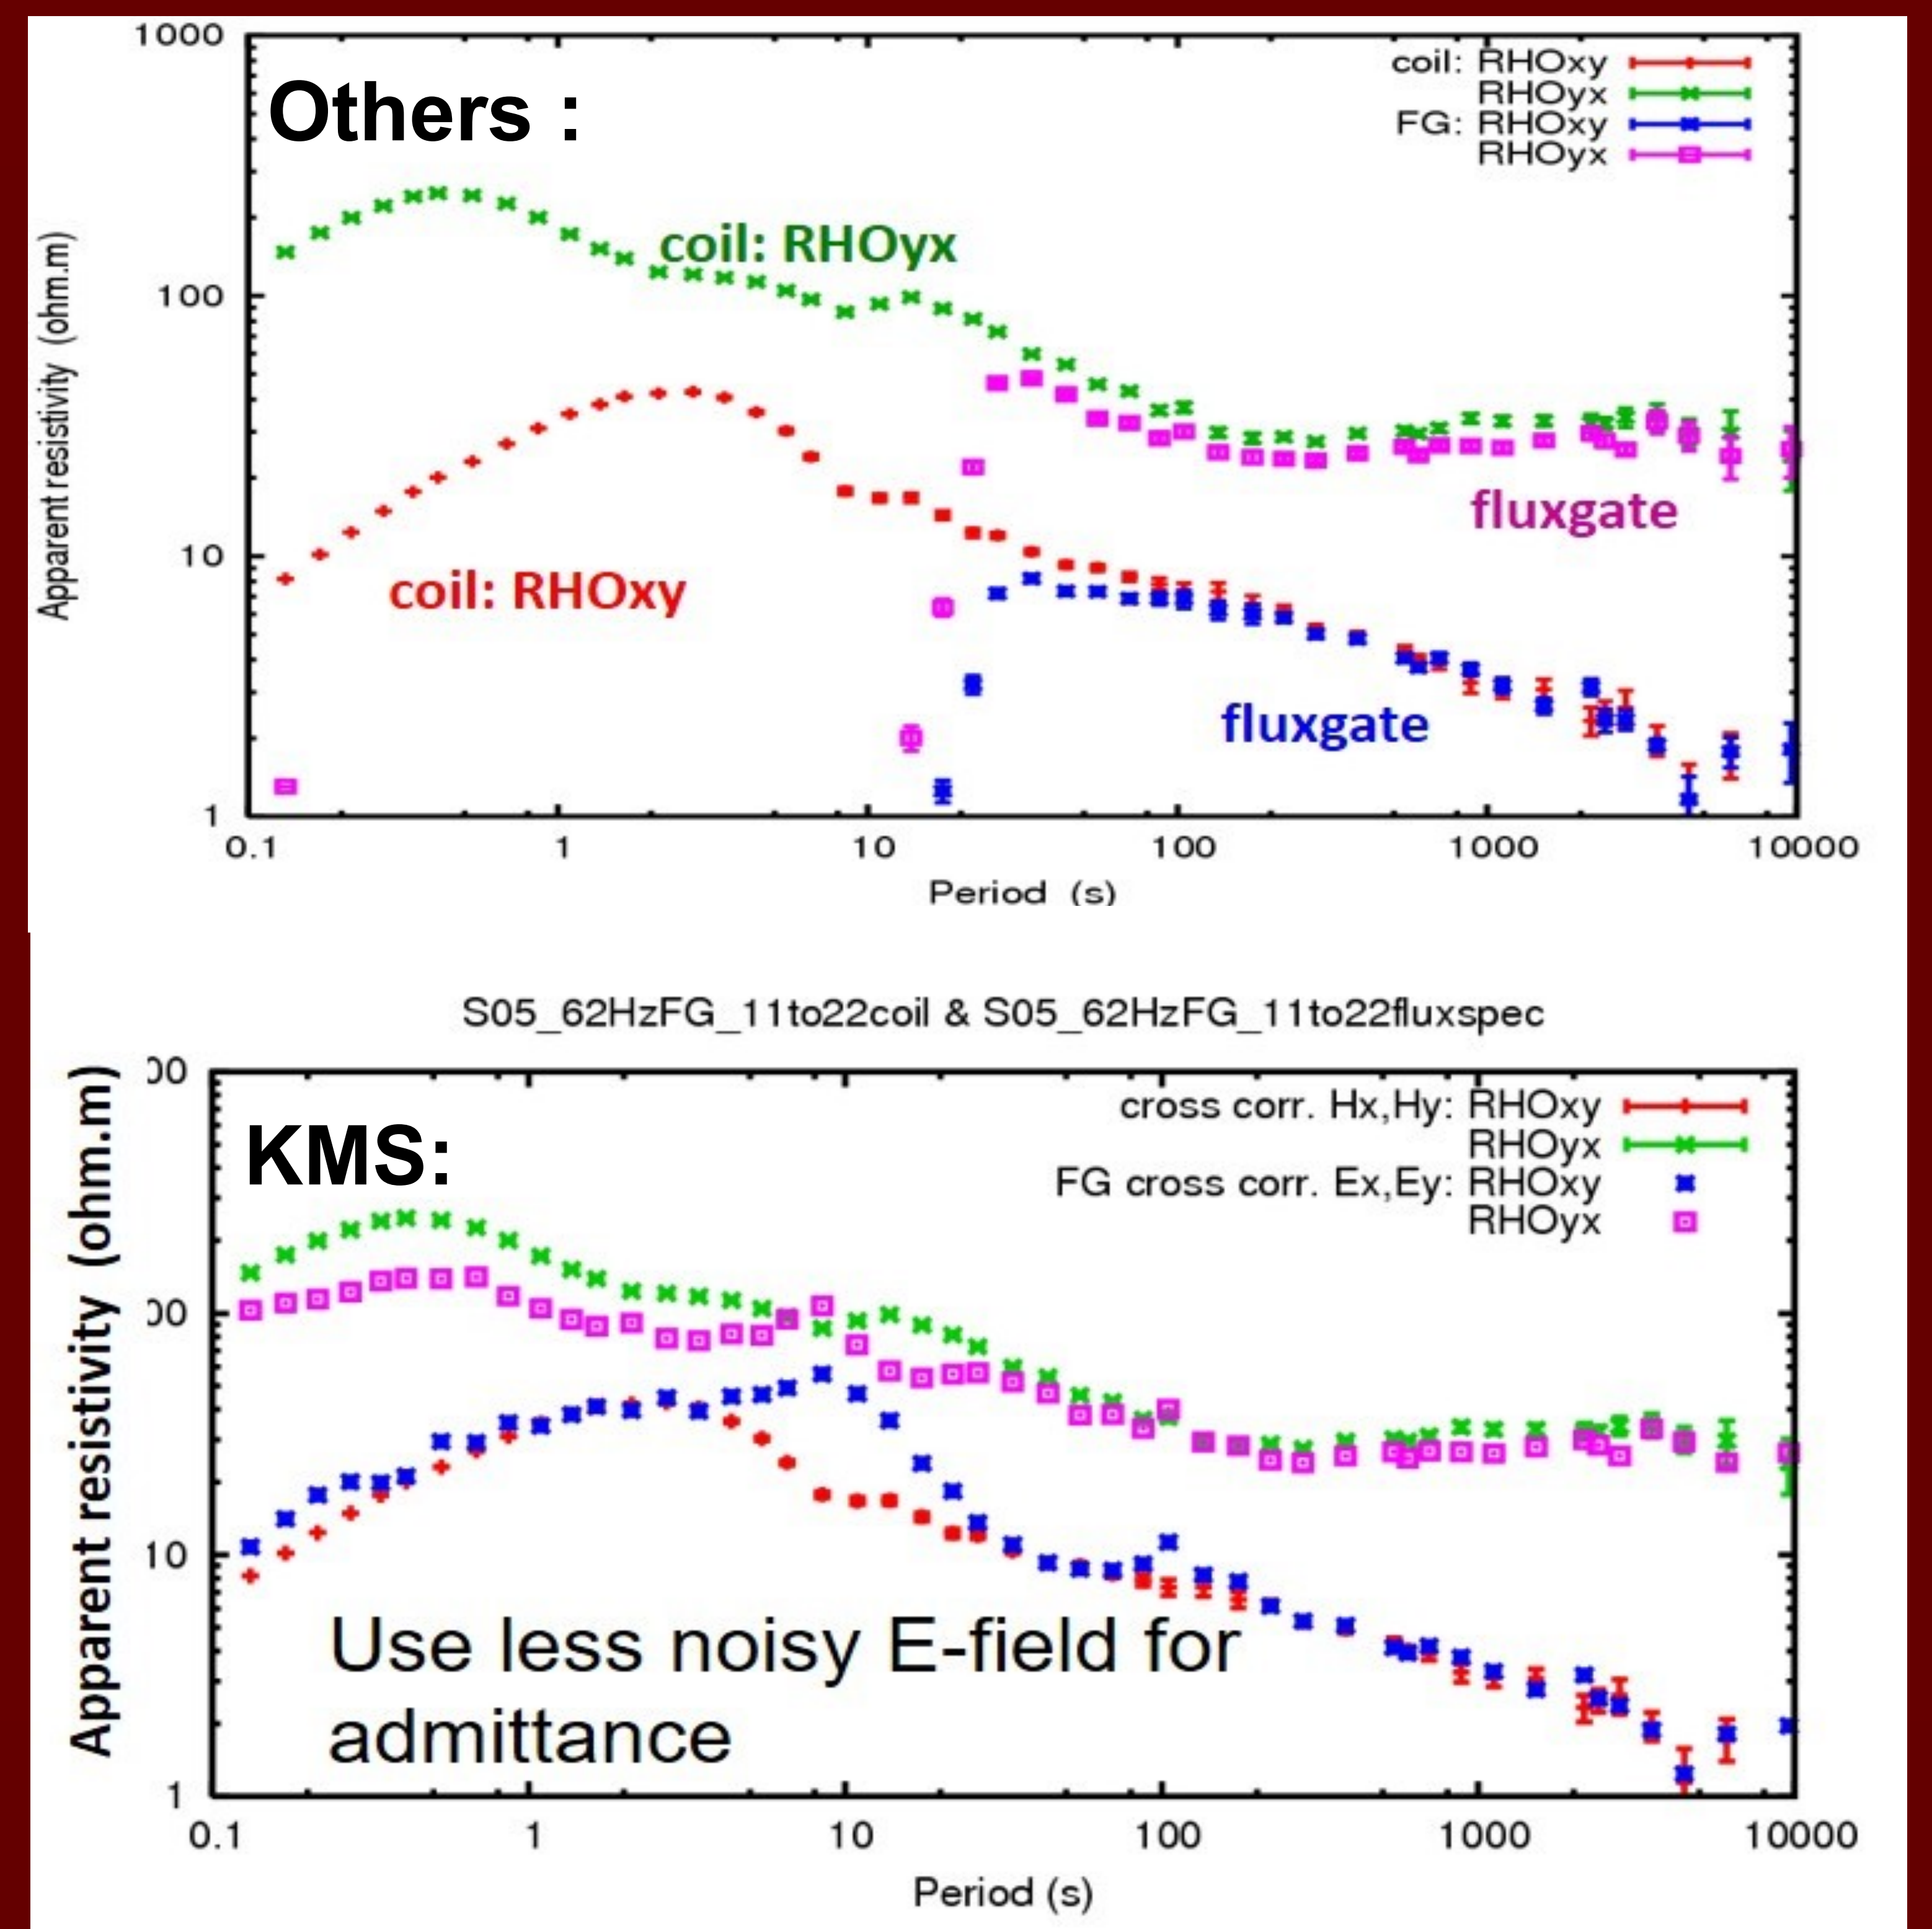

- True broadband coil
 - ◇ Single time series
 - ◇ No amplifier switch or data bands
 - ◇ 0.00025 to 10 kHz
- 100 & 150 kVA transmitter

- KMS-888 9-components seismic/EM borehole tool

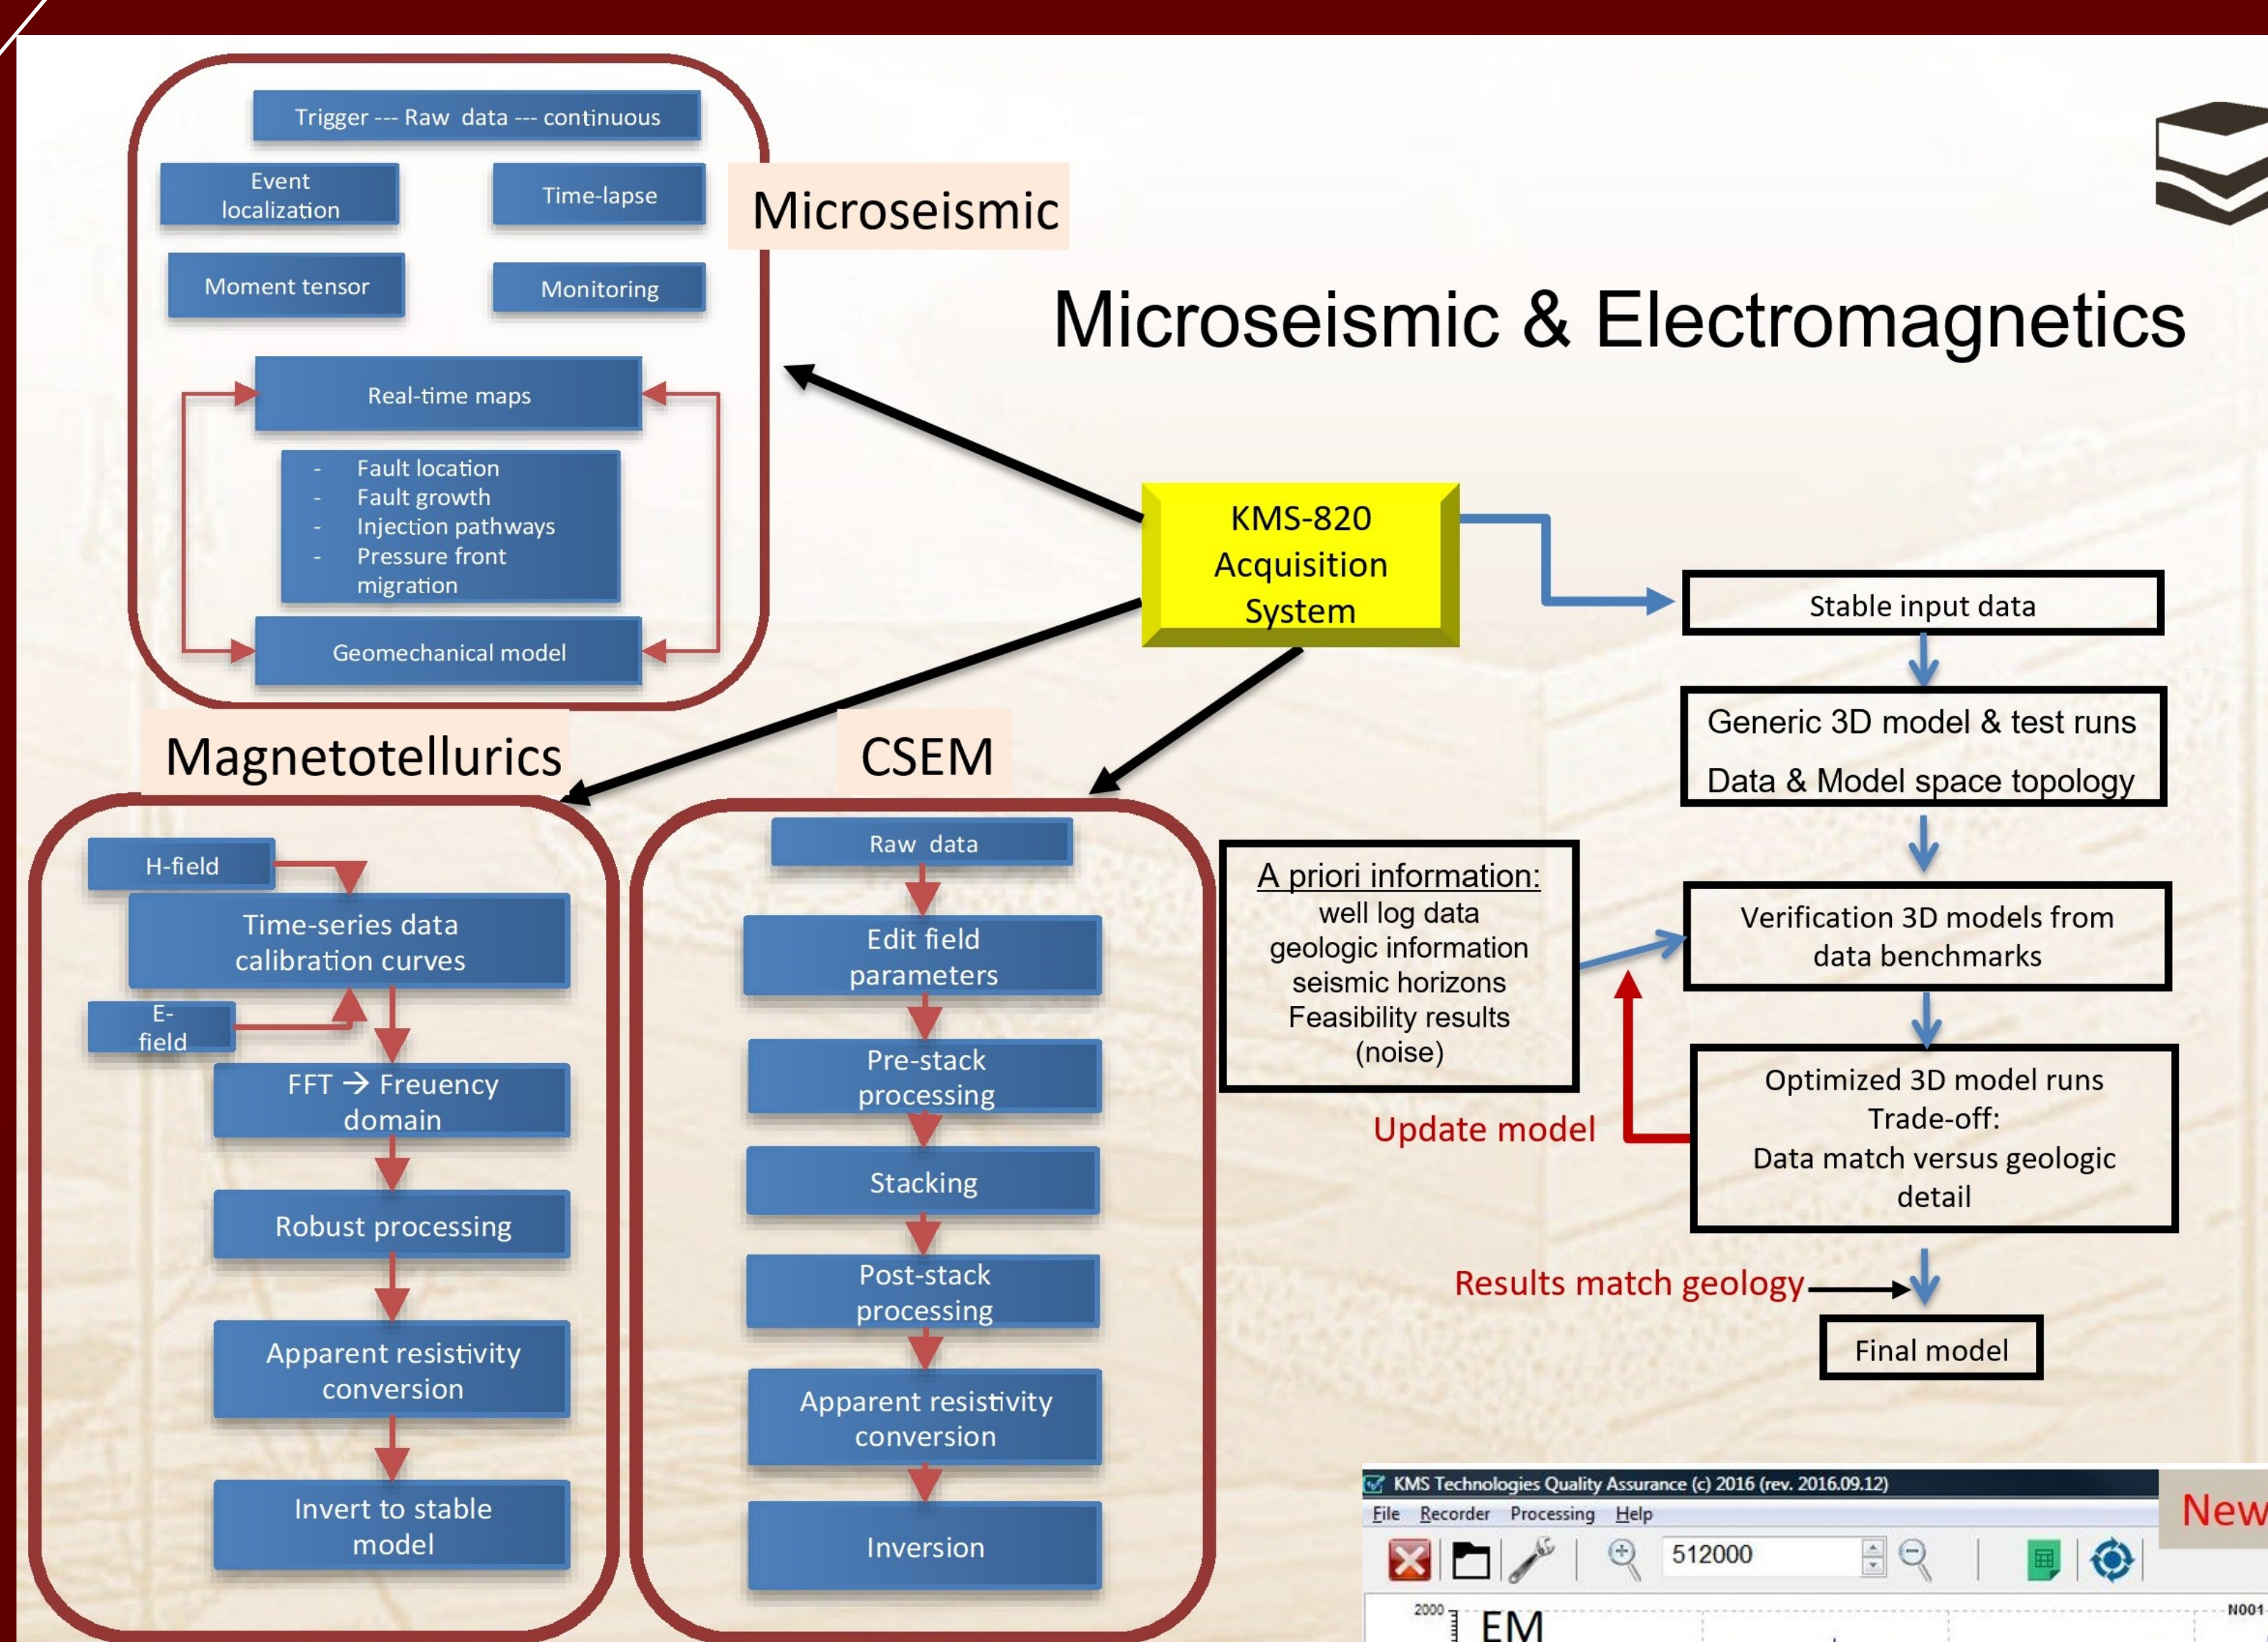

Subsurface information quality

- Your Mini MT advantages:
 - ◇ Lower cost
 - ◇ Less field equipment
 - ◇ Easy & safe operation
 - ◇ Fast field set up

Converging technologies

- Your advantages:
 - ◇ Fully integrated
 - ◇ Improved understanding of subsurface
 - ◇ Two robust MT processing workflows
 - ◇ 3D modeling & inversion, license & services
