The KMS-5100 spare kit is designed to support KMS-5100 grounded dipole TEM transmitter. This spare contains circuit breaker, 3 phase plugs, and other useful accessories for immediate field maintenance of transmitter. All components in spare kit are packaged in a ruggedized transportation container with wheels. It is easy to transport in the field and keeps all parts safe and secure.

Product features

- Compatible with all options of transmitter: 100, 150, and 200 KVA
- Container has wheels and handle, easy for transportation
- Container is lockable with TSA or other combination locks
- Water proof and ruggedized
- Comes with basic tools for field maintenance
